

StreamSets GPSS Enterprise Stage Library

1.0.0 Release Notes

August 15, 2019

We're happy to announce the first release of the StreamSets GPSS Enterprise stage library.

The StreamSets GPSS Enterprise stage library includes the GPSS Producer destination for use in StreamSets pipelines. Refer to Data Collector documentation for more information on [Enterprise stage libraries](#) and the [GPSS Producer destination](#). Use GPSS Enterprise Library 1.0.0 with Data Collector 3.8.2 and later.

The GPSS Enterprise stage library is free for development purposes only. For information about purchasing a license for use in production, [contact StreamSets](#).

Installation

Releases of Enterprise stage libraries occur separately from Data Collector releases. Be sure to install a valid version of a stage library for the Data Collector version that you are using.

For installation instructions, a list of supported versions, and other prerequisite tasks, see the [GPSS Producer destination documentation](#).
