

StreamSets Oracle Enterprise Stage Library

Version 1.0.0 Release Notes

April 30, 2019

We're happy to announce the first release of the StreamSets Oracle Enterprise stage library. The StreamSets Oracle Enterprise stage library includes the Oracle Bulkload origin for use in StreamSets pipelines.

The Oracle Enterprise stage library is free for development purposes only. For information about purchasing a license for use in production, [contact StreamSets](#).

Installation

Releases of Enterprise stage libraries occur separately from Data Collector releases. Be sure to install a valid version of the stage libraries for the Data Collector version that you are using.

For installation instructions, a list of supported versions, and other prerequisite tasks, see the [Oracle Bulkload origin documentation](#).

Additional Resources
