

# StreamSets Teradata Enterprise Stage Library

## Cumulative 1.0.x Release Notes

March 28, 2019

The StreamSets Teradata Enterprise stage library includes the Teradata Consumer origin for use in StreamSets pipelines.

Releases of Enterprise stage libraries occur separately from Data Collector releases. Be sure to install a valid version of the stage libraries for the Data Collector version that you are using. For installation instructions, the list of supported versions, and other prerequisite tasks, see the [Teradata Consumer origin](#) documentation.

The Snowflake Enterprise stage library is free for development purposes only. For information about purchasing a license for use in production, [contact StreamSets](#).

This document contains information for the following versions of the StreamSets Teradata Enterprise stage library:

- [Version 1.0.1](#)
- [Version 1.0.0](#)
- [Additional Resources](#)

## Version 1.0.1 Release Notes

March 28, 2019

We're happy to announce a new version of the StreamSets Teradata Enterprise stage library. This version contains an important bug fix.

### Upgrade

To upgrade the Teradata Enterprise stage library:

1. Use Package Manager to uninstall the previous version of the stage library by selecting the installed version and clicking the **Uninstall** icon. Then, restart Data Collector.

2. [Install the stage library](#), then restart Data Collector.
3. [Install the JDBC drivers](#) into the new Teradata Enterprise stage library.

## Fixed Issues in Version 1.0.1

This release includes the following fixed limitation:

JIRA	Description
TERADATA-17	<p>Version 1.0.0 of the Teradata Enterprise stage library is not valid for Data Collector 3.8.0.</p> <p>To use the Teradata Enterprise stage library with Data Collector 3.8.0, install version 1.0.1 of the Teradata Enterprise stage library.</p>

## Version 1.0.0 Release Notes

January 9, 2019

We're happy to announce the first release of the StreamSets Teradata Enterprise stage library.

The StreamSets Teradata Enterprise stage library includes the Teradata Consumer origin for use in StreamSets pipelines.

The Teradata Enterprise stage library is free for development purposes only. For information about purchasing a license for use in production, [contact StreamSets](#).

## Installation

For information about installing the Teradata Enterprise stage library and performing other prerequisite tasks, see the Teradata [prerequisite documentation](#).

## Known Limitations

This release includes the following known limitation:

JIRA	Description
------	-------------

TERADATA-17	Version 1.0.0 of the Teradata Enterprise stage library is not valid for Data Collector 3.8.0. <b>Workaround:</b> To use the stage library with Data Collector 3.8.0, install version 1.0.1.
-------------	--
